Cross curricular guide
Culture, media & the arts

Maths	English	Science	Humanities	Elsewhere
Finances: Choose a notable figure who fell foul of "cancel culture". Was there a direct impact on how much they earned or their brand? Map this out in pairs.	**Modern Prose & Drama:** Imagine you were trying to explain today's culture to a close-minded character from one of your texts. How do you think the conversation would go?	**Physics – Inventions:** Find out about a physicist whose ideas were initially considered "crazy". What was the scientific reasoning behind this? Where would we be today without these ideas?	**Geography – Economic Change:** Choose a product often promoted by celebrities or influencers (e.g. cosmetics). Map how its sales have changed over time in a country of your choice.	**MFL – Speaking (Starter):** Learn a phrase in another language relating to social media. Then repeat it to a partner. Can they guess the meaning? What gave it away?
Measurement: Work out the average distance covered by a paparazzo's camera in comparison with a camera phone. What's the difference in image quality?	**Non-Fiction Text Types:** Use any examples you've seen of people being cancelled to come up with a guide to keeping your profile squeaky-clean on social media!	**Biology – Evolution:** Can you come up with a simple explanation for the biological impulses behind "pack mentality"? What is it about in a group that makes us more inclined to act the same way?	**RE – Media:** Choose a famous figure who you feel is a positive role model for young people of a certain faith. Write a letter to them outlining how they have changed your perspective.	**Music – Film & TV:** As a class, come up with a list of 10 celebrities. In groups, pick one and compose a theme tune for their life! Can the rest of the class guess who you chose?
